

Fund #	Name	Description
100	Institute on Multicultural Health AIM HI	The vision of the Institute on Multicultural Health (IOMH) is to achieve health equity for underrepresented racial/ethnic minorities, as well as other marginalized and underserved populations, and to eliminate health inequities for all. Our strategy includes conducting and facilitating projects focusing on health and healthcare disparities, developing community-based initiatives that work towards sustainable solutions for equity in health/healthcare, and providing training and consultation to build organizational capacity for integration of interventions that will achieve healthcare equity.
101	Henry Ford Health Patient Medical Needs Fund	This fund will be used to support Henry Ford Health patients that need assistance with the costs associated with medical care. This may include, but is not limited to, costs associated with prescription medications, costs related to transportation to obtain medical services, medical equipment expenses, and other costs associated with medical services.
102	African American Physician Resource Group Fund [OPAL]	Funds will be used to develop, mentor, and promote physicians, educate and train and to promote Henry Ford Health to communities as we provide needed services and care.
104	HFMG Diversity, Equity, Inclusion and Justice (DEIJ) Fund	This fund supports Henry Ford Medical Group's efforts related to Diversity, Equity, Inclusion and Justice (DEIJ). HFMG recognizes that DEIJ initiatives can have a direct positive impact on patient health outcomes. These efforts may include research activities to understand the impact of DEIJ interventions, patient educational interventions, staff education and training, etc.
105	Goldman Therapy Dog Program	The goal of this program is to present healthy, active and energetic facility dogs who are handled by accountable, enthusiastic, and sensitive handlers. With additional dogs, we can meet more patient requests. Creating a handler team will allow the dogs to perform at their best, will increase communication with staff, provide routine schedules, and ensure consistent dog training occurs.
110	Allergy and Immunology Fund	This fund will support the education and research projects for the department of Allergy and Immunology, including new equipment, seed money for pilot research projects, new technology and educational tools.
111	COVID-19 Emergency Needs Fund	These funds will be used to provide relief during the COVID-19 pandemic. This could include, but will not be limited to the following; assistance for employees and patients, testing and screening tools, educational materials, etc.
112	Covid Employee Relief Fund	To support financial and other needs of employees following the COVID-19 crisis. Active employees, as well as those furloughed or laid off during the COVID-19 pandemic, are eligible for support. This fund can be used to support a wide variety of employee needs including expenses related to food, utilities, shelter, childcare, transportation, loan payments, phone bills, medical care, medical insurance premiums, clothing, training, and other expenses deemed appropriate by the HFH Human Resources team. These funds may also be used to establish programs to address employee needs in this time of crisis.
113	ALS Education & Research Fund	This fund will support the education and research projects specific to ALS (Amyotrophic Lateral Sclerosis), including new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with ALS who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
114	Alzheimer's Disease Program Fund	This fund will support the education and research projects specific to Alzheimer's disease including: new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with Alzheimer's disease who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
120	Anesthesiology Education and Research Fund	This fund will support the education and research projects for the department of Anesthesiology, including new equipment, seed money for pilot projects, new technology and educational tools.
121	Henry Ford Education Research and Leadership Development (HERALD) Anesthesiology	The Henry Ford Education Research and Leadership Development (HERALD) fund donations support training and mentoring the next generation of educational leaders who advance the science of learning through the integration of modern adult learning theory and cutting-edge technologies to develop rigorous metrics and measuring progression of knowledge, skills, and abilities (KSA). This approach will not only improve education, but also outcomes for our patients. The key modalities employed are hand motion tracking and virtual/augmented reality systems.
129	Maple Grove/Substance Abuse Treatment Excellence	This fund supports excellence in the prevention, diagnosis and treatment of substance abuse disorders including that of alcohol and opiates. More than 20 million Americans suffer from a substance use disorder. This fund supports residential, outpatient and consultative services for teens and adults combining expertise in education, prevention, psychotherapies, and pharmacotherapies, when appropriate. Excellence includes interventions in the acute phase as well as sustained recovery and wellness who struggle with addiction and abuse.

130	Perfect Depression Care Management	Depression is a common and serious illness, yet it also one of the most misunderstood. Fortunately, Henry Ford's Department of Psychiatry has developed an innovative and highly successful approach to "perfecting" depression care which has received numerous awards and made a difference to thousands of patients. Supporting this fund will ensure these programs continue.
131	Perfect Psychiatric Care	In 2001, Behavioral Health Services invested in Perfect Depression Care; an initiative that created the aspirational goal of zero suicide. This goal and the clinical guidelines that supported it is now an international phenomenon; Henry Ford is in the forefront of suicide prevention across the globe. This focus on perfection continues not only in the area of continued suicide prevention strategies but in all facets of care for the prevention and treatment of mood disorders, anxiety disorders, psychosis, and other psychiatric disorders. Innovations in models of care, novel therapies, and digital technologies are at the forefront of assuring access to mental health care as well as attaining remission of symptoms for our patients.
132	Public Health Sciences General Fund	This fund will support the education and research projects for Public Health Sciences, including new equipment, seed money for pilot projects and educational tools.
133	Bone and Mineral Research - Endocrinology	This fund will support Bone and Mineral research projects for Endocrinology, including new equipment, seed money for pilot projects and educational tools.
134	Bone Marrow Transplant Emergency Needs Fund	This fund will support the education and research projects for bone marrow transplants, including new equipment, seed money for pilot research projects, new technology and education tools.
135	Mrs. Hema & Dr. Sudhaker D. Rao Bone & Mineral Research Legacy Endowed Fund	This fund shall be used to recognize leadership in bone and mineral disorders by sponsoring a visit by prominent researchers to the HFHS campus to present their noteworthy findings to the medical community. This fund may also be utilized for related research projects such as training interested candidates to learn the trans-iliac bone biopsy procedure, a technique Dr. Rao mastered and revived, bone histomorphometry and other related research projects.
140	Catherine M. Prince Cancer Relief Fund	This program was established by a cancer patient who wanted to help patients being treated at the Henry Ford Cancer - Detroit with limited resources. The program assists cancer patients who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
141	Cardiothoracic Surgical Division Fund	Donations to this fund will help support Henry Ford's Cardiothoracic Surgical Division through educational program and funding for special research projects.
142	Cardiac Catheterization Lab Fund	This fund will support the education and research projects for the Cardiac Catheterization Lab within the Division of Cardiology including new equipment, seed money for pilot projects, new technologies and educational tools as well as funds for meetings and symposiums.
143	Cardiology Education Fund	Donations to this fund will be used for education activities within the Cardiology Department.
144	C.A.R.E. Initiative General Fund	A general fund for unrestricted donations made in support of the C.A.R.E. (Caregiver Assistance Resources and Education) Initiative.
145	Center for Autism and Developmental Disabilities (CADD): Racing For Kids	This fund supports Henry Ford Health Medical Center - Grosse Pointe initiatives toward the health care needs of children in Pediatrics and Autism research. The Henry Ford Center for Autism and Developmental Disabilities (CADD) is a world-class center committed to improving the lives of children and youth with special health care needs by providing a comprehensive diagnostic evaluation, evidence-based and accessible ABA therapy services, and a medical home standard of primary care.
146	Dr. Claudio Schuger Research Fund	To support and advance research and quality in the field of Cardiac Electrophysiology at Henry Ford Hospital, enabling Cardiac Electrophysiology fellows and staff to provide world class care to their patients.
147	Colon and Rectal Surgery Research and Academid Fund	This fund shall be used in support of research in the treatment of colon and rectal diseases, along with the costs for any resources needed to successfully perform this research including but not limited to, equipment, recruitment and retention of staff, physical space, and optimization of education. The Chair Division of Colon and Rectal Surgery at Henry Ford Health shall be responsible for carrying out the intended purpose of the gift.
150	Center for Health Services Research	The Center for Health Services Research conducts studies on new ways to improve how health care functions. It studies innovative ways to improve quality, control cost, and improve patient outcomes. Center investigators work collaboratively with doctors and nurses in studies on asthma, diabetes, and cancer care, as well as on racial/ethnic disparities in care for a variety of clinical conditions.
160	Center for Integrative Medicine	The Center provides a healing environment in a space of total relaxation and comfort. It is a state-of-the-art facility where highly trained practitioners provide therapies drawn from the best of the world's healing traditions to help you achieve overall wellness and optimal health. The Center's treatments include: neuromuscular therapy, massage therapy, acupuncture, and herbal and nutritional counseling.

170	Senior Services Departmental Fund (PACE of Southeast Michigan)	Comprehensive care for elderly individuals aimed to help them remain independent in their own homes.
180	Simulation and Research Laboratory	A comprehensive simulation, education and research center for doctors, nurses, students and other health care providers, to learn and practice real medical situations and enhance the provision of high quality, safe medical care. This state-of-the-art, 12,000 square foot space is the largest simulation center in the Midwest, and is located in the basement of Henry Ford Hospital.
181	Lisa and Christopher Jeffries Center for Precision Medicine	These resources will support all aspects of leading-edge scientific, clinical and educational activities that advance the precision medicine enterprise of Henry Ford Health System. These efforts will better patient care, improve outcomes and truly transform the practice of medicine.
182	Center for Structural Heart Disease Fund	This fund supports the specific work of the Center for Structural Heart Disease. These gifts support research, equipment procurement, and other needs.
185	CLEAR Conversations Project	The Clear Communications Project supports the implementation of the connect-listen-empathize-align-respect (CLEAR) Conversations model to continually improve physician communications with patients and families.
190	Henry W. Lim, M.D. Lectureship and Education Fund (Dermatology)	This fund will support the education and research projects for the department of Dermatology, including new equipment, seed money for pilot projects, new technology and educational tools.
192	Center for Cutaneous Oncology	This fund will advance the treatment, diagnosis and care of patients with skin cancer as well as support research initiatives, with the ultimate goal of finding a cure to skin cancer. Funds will be used for equipment purchases, research, travel, hiring personnel and other activities that enhance and advance the Center for Cutaneous Oncology.
194	Detroit Institute of Ophthalmology Friends of Vision Fund	Donations to this fund supplement monies raised by our volunteer arm, the Friends of Vision.
195	Detroit Institute of Ophthalmology Support Group Fund	This fund covers expenses related to running support groups at the Detroit Institute of Ophthalmology (excluding transportation expenses).
197	Detroit Institute of Ophthalmology Research Fund	This fund will support research development.
200	Diagnostic Radiology (Eyler Fund)	This fund will support the education and research projects for the department of Diagnostic Radiology, including new equipment, seed money for pilot projects, new technology and educational tools.
209	Dialysis Patient Nutrition Assistance Fund	This fund provides supplements at cost or free of charge to Greenfield Dialysis patients who are financially unable to purchase them otherwise.
213	Dr. Colleen Grace Cancer Fund	The purpose of this fund is to honor the memory of Dr. Colleen Grace, late daughter of William and Sue Conway, and to fund general purpose cancer programs, to include but not limited to, research, education, equipment or other capital needs.
215	Community Care Services Each Patient First Fund	This fund provides financial assistance to current Henry Ford Home Health Care patients who demonstrate financial need and are sponsored by a Henry Ford Home Health Care employee. The focus of the program is to improve the quality of patients' lives by helping to pay for medications, supplies and medical-related products that are not currently being provided for or funded by other sources.
219	Department of Emergency Medicine Chairman's Education and Research Gift Fund	This fund is for the development of research and education and will be used to further the program in the Department of Emergency Medicine.
220	Henry Ford Hospital Emergency Department Renovation Fund	The Department of Emergency Medicine is the largest gateway to Henry Ford Hospital. The Department has a distinguished history of both basic science and clinical research. This Level I trauma center will embark on a major renovation project to expand the space and services to better serve the city of Detroit and all Southeast Michigan.
221	Emergency Department - Sterling Heights Medical Center	This fund would help support the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.
223	Detroit Institute of Ophthalmology (DIO) General Fund	The DIO General Fund is the account that will receive annual donations that will be restricted for the general operating use for the Detroit Institute of Ophthalmology.
230	Endocrinology and Metabolism Research Fund	This fund will help support the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.
233	Epilepsy Program Fund	This fund will support the education and research projects specific to epilepsy, including new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with epilepsy who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
240	J.D. Carey Residency Endowment	The fund supports the education and training of residents within the Department of Eye Care Services enabling them to develop the necessary skills to become specialists.
241	Eye Care Services Capital Fund	Supports the department in acquiring new equipment as well as upgrading current equipment.

244	Eye Care Services McCole Chair	This fund will support the education and research projects for the department of Eye Care Services, including new equipment, seed money for pilot projects, new technology and educational tools. Funds support educational and research activities in the Department of Ophthalmology and Eye Care Services.
245	Eye Care Service Ralph Conger Fund	This fund supports the education and research projects for the department of Visual Rehab/Low Vision, including new equipment, seed money for pilot projects, new technology and educational tools.
246	Ophthalmology Research and Development Fund	This fund supports the education and research projects for the department of Eye Care Services, including new equipment, seed money for pilot projects, new technology and educational tools.
247	Visual Rehabilitation Center Fund	Supports education, research, equipment, seed money for pilot projects, new technology and educational tools.
250	Department of Family Practice Endowment	This fund will support the education and research projects for the department of Family Practice, including new equipment, seed money for pilot projects, new technology and educational tools.
252	Primary Health Innovation Fund	This fund was created to promote innovation and equity in the management of our patients with an emphasis on chronic conditions and the advancement of self-care strategies for at-risk populations. The purpose is to advance innovations in care and reduce the disparities that currently exist by innovating the care model, engaging patients in the care process and advancing the availability of relevant and usable self-management tools. This will help to preserve and enhance personal health with the ultimate goal of improved clinical outcomes, reduced social barriers, and better quality of life.
254	Fund for Kingswood	This fund will support the education and research projects for Henry Ford Kingswood Hospital, including new equipment, seed money for pilot projects, new technology and educational tools.
265	Game On Cancer Patient & Research Fund	Game On Cancer (GOC) provides assistance to patients that alleviates barriers to cancer care and provides critical cancer research funding and supportive oncology programs. 100% of funds raised support this mission. The patient assistance program is frequently used to assist with groceries, housing, utilities, transportation, medication, medical supplies, other essential non-medical items not covered by insurance. Often times patients are forced to make the choice between cancer treatments or buying groceries, not having a ride to chemotherapy appointments and/or not being able to pay rent or mortgage. Game On Cancer helps to relieve stress and bridge financial gaps so that patients can focus on their cancer treatment.
266	Henry Ford Cancer - Detroit Supportive Oncology Services Comfort Bites Fund	This fund will be used for a pilot program called Comfort Bites, offering Henry Ford Hospital chemotherapy patients a variety of healthy and nutritious snack options. The goal is to purchase Henry Ford Cancer - Detroit dietician-approved snack choices and utilize trained volunteers to give chemotherapy patients the option to choose a healthy snack increasing satisfactions with their care and overall well-being.
270	Gastroenterology Research Fund	This fund will support the education and research projects for the department of Gastroenterology, including new equipment, seed money for pilot projects, new technology and educational tools.
275	Gaylord D. Alexander, M.D. Endowed Anesthesiology Resident Education Fund	The Gaylord D. Alexander, M.D. Endowed Anesthesiology Resident Education Fund is established by Gaylord D. Alexander, M.D. exclusively to enhance the education and training of anesthesia residents by providing scholarships for residents to travel to a resource-poor area of the globe to provide care and receive training.
277	Genitourinary Oncology Research Fund	This fund will be used to support cancer research for genitourinary malignancies.
278	Gene Therapy Cancer Research	This fund will support the research projects for the department of Gene Therapy Cancer, including new equipment, seed money for pilot projects, new technology and educational tools.
279	General Internal Medicine Fund	This fund will support the education and research projects for the department of General Internal Medicine, including new equipment, seed money for pilot projects, new technology and educational tools.
282	Neuroregeneration Center Fund	This center develops novel restorative therapies for the treatment of stroke, neural injury, and neurodegenerative diseases, such as multiple sclerosis and dementia. Nearly all people will develop a neurological disease during their lifetimes. The highly innovative and effective approach of this center is that the focus of the development is on ways to remodel and rewire the central nervous system after an injury or onset of disease. This center is developing the means to stimulate the body's intrinsic restorative processes to effectively treat neurological disease.

283	Global Health Initiative Strategic Fund	Henry Ford Health makes a difference around the world. The Global Health Initiative partners with 26 departments and divisions to share our expertise and build capacity with partners abroad. One of the most meaningful GHI activities is hosting trainees from developing countries and sending HFH experts abroad through a medical education exchange. Donations through Employee Giving to GHI go directly to: \$250 (~\$10/pay) hosts one global health lecture at Henry Ford Health or abroad; \$1,000 (~\$40/pay) covers roundtrip airfare for 1 international trainee or 1 Henry Ford Health expert; \$2,500 (~\$100/pay) covers the full cost of the exchange experience for 1 international trainee or 1 Henry Ford Health expert abroad.
285	Henry Ford Medical Group Impression Fund	Funds to be used to purchase items to enhance the appearance of the Detroit Campus Clinic Building.
287	HF Alumni Association Endowed Fund	Fund to provide financial support for resident awards and educational activities of the Henry Ford Alumni Association at Henry Ford Hospital.
290	Healing Arts Program	This program uses art to promote health and healing by enhancing the physical environment for everyone using HFH hospitals and medical centers. Through the addition of artwork in care delivery rooms and waiting areas, the programs looks to create an atmosphere that is calming and nurturing for patients as well as staff. Donations to this fund will support the purchase, installation and maintenance of artwork throughout the HFH.
291	David DiChiera Music Therapy Program	This fund supports a music therapy program in honor of David DiChiera, an American composer and founding general director of Michigan Opera Theatre, and is specifically for patients battling cancer.
301	Heart Failure Research Project	This fund will support the education and research projects for Heart Failure, including new equipment, seed money for pilot projects, new technology and educational tools.
302	Heart Failure Rehab Project	This fund will support the education and research projects for Heart Failure Rehab, including new equipment, seed money for pilot projects, new technology and educational tools.
303	HVI Research Fund	This fund supports research projects for the Heart and Vascular Institute at Henry Ford Hospital.
304	Head and Neck Cancer Program	These funds will be used to support the enhancement and expansion of the Head and Neck Cancer Program within the department of Otolaryngology. The needs of this program include patient and staff education as well as funds for research, equipment and capital needs.
305	Macomb Hospitals Bariatric Educational Fund	This fund is to be used for education of the bariatric staff and patient needs as per the discretion of the Bariatric Program Manager.
306	Macomb Hospitals "Yes Ma'am" Fund	This fund will provide vouchers through the Neighbors Caring for Neighbors Clinic for women and men who need breast screening.
307	Macomb Surgical Center Fund	A Capital Campaign will raise fund(s) for HFMH Surgical expansion/renovation project. The funds raised will be used to support the expansion, renovation and equipment needed to complete this project.
318	Macomb Campus Pastoral Care Fund	Maybe it's a short prayer card, a bible or even a rosary. Whatever it is, Pastoral Care provides these compassionate items which can help comfort us through a difficult time. Your support of Pastoral Care at Henry Ford Macomb Hospital can enable our Chaplain to continue providing families of loved one with these types of items whenever needed.
320	Bob and Sandy Riney Helping Hands Fund	Helping Hands is a charitable initiative sponsored and funded entirely by employees and physicians to help co-workers, volunteers and retirees in times of need. Since its inception in 1992, the program has provided financial assistance to hundreds of people in need. It has achieved amazing results including helping pay for food, clothing and shelter for families who have lost their homes to fire as well as helping those who are sick or injured to pay for medical care unavailable through other means.
322	Henry Ford Health Medical Center - Grosse Pointe Emergency Department	This fund would help support the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.
325	Henry Ford Health Medical Center - Grosse Pointe Women's Services Fund	Henry Ford board-certified radiologists and a specialized staff of technologists provide film screen and digital mammography, 4-dimensional ultrasound, bone densitometry, and minimally invasive breast biopsy in a female-friendly, attractive and comforting environment. A Registered Nurse Breast Care Coordinator gives women guidance and support when further testing or surgery is needed. Mammopads are provided to patients free of additional charge to help minimize compression discomfort during mammograms.
328	Henry Ford Health Medical Center - Grosse Pointe Special Needs Fund	Donations to this fund will cover the cost of new equipment, programs unique to the center and facility upgrades.

329	Henry Ford at Home Development Fund	This fund is designed to support innovation and advancement of in-home services, products and technologies. Funds are dedicated to specialized education of staff, acceleration of patient care process improvement and testing of new in-home technology.
330	Henry Ford Hospital Building Fund	Over the next ten years we need to raise funds to pay for major upgrades to our campus and for important programs unique to the hospital. A gift to this building fund will help renovate this historic facility in ways that will touch hundreds of thousands of lives for decades.
331	Palliative Medicine: Educational and Support Projects	Donations to this fund will cover the cost of projects and educational materials for patients and their families.
335	Henry W. Lim, M.D., Endowed Chair in Dermatology Research	The Henry W. Lim, M.D., Endowed Chair in Dermatology Research is established to support research consistent with the mission of the Henry Ford Hospital Department of Dermatology. The research should further enhance the position of the Department as a leading academic department of dermatology in the US, a department with a long tradition of providing excellent patient care through research and education of the next generation of dermatology.
336	Macomb Hospital Trauma Fund	Supports the trauma program at Henry Ford Macomb Hospital.
337	Macomb Hospital K9 Fund	This fund supports Macomb's K9 program. The K9 unit will patrol HFMH and interact with patients, staff, visitors and more. Their reassuring presence deters aggressive behaviors while bring emotional support to patients who need it.
338	Macomb Hospital Strategic Fund	The Henry Ford Macomb Hospital Strategic Fund will receive annual donations that will be restricted for the general operating and/or capital needs of the hospitals. The Chief Executive Officer (CEO) of Henry Ford Macomb Hospital will identify areas of need, and the funds raised will be spent at the discretion of the CEO.
340	Henry Ford Hospital - Tom Groth Patient Medical Needs Fund	This is an amazing opportunity to help people who desperately need help but can't afford the cost of health care. At Henry Ford Health, the Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
343	Henry Ford Hospital Memorial Garden	The Memorial Garden offers a quiet place near the hospital for parents and family experiencing a loss of a loved one to express love and grieve in natural, peaceful surroundings.
345	Macomb Hospital Patient Medical Needs	At Henry Ford Macomb Hospital, the Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
348	Fairlane Medical Center Emergency Department	This fund will support Henry Ford Health Medical Center - Fairlane's Emergency Department by providing funding new equipment, seed money for pilot projects, new technology and educational tools, and a variety of other activities that are vital to the productivity of the department.
349	Macomb Hospital Oncology Center Fund	This fund supports the cutting-edge Cancer Institute at Henry Ford Macomb Hospital, including enhancements in patient care and treatment.
350	Fairlane General Fund	Henry Ford Health Medical Center - Fairlane currently has two main projects in need of funding: the expansion and renovation of the ambulatory surgery area, and the expansion and renovation of the emergency department. Both of these areas are very important to all of the patients in the Southern region.
351	Macomb Hospital Behavioral Medicine Fund	The Henry Ford Macomb Hospital behavioral medicine staff work with patients to provide innovative and effective treatments. This fund will be used to support the needs of the Behavioral Medicine Program.
352	Macomb Hospital Circle of Caring Fund	This fund previously directed by Sr. Bernadette will be used where it is needed most at Henry Ford Macomb Hospital to provide the necessary tools for managing the health needs of people in our community. Thank you for helping us meet the needs of people in our community.
353	Macomb Hospital Heart Institute	Donations to this fund help support the ongoing improvements and equipment that lead to better diagnosis and treatment of Heart and Vascular patients.
354	Macomb Hospital Neighbors Caring for Neighbors General Fund	The Neighbors Caring for Neighbors Outreach Clinics provides basic medical care and health education to uninsured low-income Macomb County residents. The clinics offer a wide range of services including treatment of acute conditions, management of chronic illnesses, physicals, and prescription assistance. Children and adults alike benefit from the sacred care given at the clinic.
355	Macomb Hospital Nursing Fund	Nurses are important and vital to the success of Henry Ford Macomb Hospital. This fund will be used specifically for the education and advancement of our nurses through a variety of activities.

356	Macomb Hospital Medical Staff Fund	The Henry Ford Macomb Hospital medical staff provides high quality and personal medical care to thousands of people who live and work in the surrounding area. Donations to this fund will support the needs of Henry Ford Macomb Hospital based on recommendations made by members of the medical staff.
357	Macomb Hospital Neuroscience Fund	This fund will support the education and research projects for the department of Neuroscience, including new equipment, seed money for pilot projects, new technology and educational tools.
358	Macomb Hospital Employee Emergency Seton Fund	This fund recognizes that all of us face emergency situations from time to time that may require assistance in meeting these unexpected expenses. Henry Ford Macomb Hospital has established the Seton Employee Emergency Fund to help employees meet financial needs in a time of crisis.
359	West Bloomfield Cardiology Fund	This fund will support the education and research projects for Henry Ford Health West Bloomfield Hospital's Cardiology Department, including new equipment, seed money for pilot projects, new technology and educational tools.
360	West Bloomfield Hospital Building Fund	Located in one of the fastest-growing areas of southeast Michigan, Henry Ford West Bloomfield Hospital shatters the paradigm of the modern hospital. A gift to HFWBH will help create an ultramodern facility that will touch hundreds of thousands of lives for decades.
361	Francee and Benson Ford, Jr. Breast Care and Wellness Center at HFWB	This fund will support the needs of the breast care and wellness center located at Henry Ford West Bloomfield Hospital.
362	West Bloomfield Hospital Emergency Department	This fund will support the education and research projects for HF West Bloomfield's Emergency Department, including new equipment, seed money for pilot projects, new technology and educational tools.
363	West Bloomfield Hospital Beautification Fund	By purchasing a stone paver, tree or bench at the Reflection Pond behind West Bloomfield Hospital, your donation will be supporting the ongoing costs for installation and maintenance of the property surrounding the hospital.
364	West Bloomfield Hospital Path to Wellness Fund	This fund supports the planning, design, construction and maintenance of walking and bicycle trails on the West Bloomfield campus.
365	West Bloomfield Ob/Gyn Fund	This fund will support the education and research projects for HF West Bloomfield's Ob/Gyn Department, including new equipment, seed money for pilot projects, new technology and educational tools.
366	Wyandotte Center for Health Services	This fund will support the education and research projects for HF Wyandotte's Center for Health Services, including new equipment, seed money for pilot projects, new technology and educational tools.
367	Wyandotte Clinic for the Working Uninsured	This fund supports the Clinic for the Working Uninsured which provides a variety of health care services to Downriver residents who are working but without medical insurance.
368	Wyandotte Hospital "I Promise" Fund	This program was established specifically for downriver patients with cancer. The program assists patients who lack the economic resources to cover their needs for wigs or other prosthetics due to Chemotherapy treatment for cancer. Patients who qualify for this program are eligible to receive up to a \$200 voucher for their special needs.
369	Wyandotte Hospital Nursing Development Fund	This fund will be used to support nursing specific programs, equipment, education and/or the greatest needs of HFWH nurses as identified by nursing leadership at HFWH.
370	Wyandotte Hospital Patient Medical Needs	At Henry Ford Wyandotte Hospital the Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
371	Wyandotte Hospital Medical Staff Fund	The medical staff of Henry Ford Wyandotte Hospital provides high quality and personal medical care to thousands of people who live and work in the surrounding area. Members of the medical staff have another unique opportunity to work with many nonprofit organizations and institutions - including Henry Ford Wyandotte Hospital - whose vision and mission are to serve area residents. This fund will help coordinate charitable donations from the medical staff of Henry Ford Wyandotte Hospital while helping meet the needs of the surrounding community.
372	Wyandotte General Fund	Henry Ford Wyandotte Hospital building fund will support facility upgrades, such as cafeteria renovations, new fitness equipment in the employee wellness center, grounds beautification, as well as, special equipment purchases.
373	Wyandotte Center for Emergency and Critical Care	The Center for Emergency and Critical Care at Henry Ford Medical Center - Brownstown Township has a mission of providing important life-saving care to our most critically ill patients. This fund will enable the Center to make major renovations to its facility, purchase the latest, most technologically advanced equipment, and support many of the numerous community outreach initiatives that are led by our physicians and staff.

374	Center for Women's and Children's Health Fund (Safe Sleep)	Funds support the birthing center at Henry Ford Wyandotte Hospital (HFWH), as well as Women's Services and pediatric services at HFWH and CHS. Currently the CWCH's main project is providing safe sleep sacks to all babies born at HFWH and Henry Ford Hospital to help eliminate the preventable deaths associated with SUID and SIDS (Sudden Unexpected Infant Deaths and Sudden Infant Death Syndrome).
375	Wyandotte Hospital Center for Surgery Fund	The Center for Surgery bundles together all of the surgical programs and services, both inpatient and outpatient, offered at Henry Ford Wyandotte Hospital and the Center for Health Services (CHS) at Henry Ford Medical Center - Brownstown Township. This fund will support the Center's ability to make major renovations to its surgical suites, purchase needed equipment not included in the capital budgets, and to help support new programs that will improve the quality of care for patients, and also improve the work environment for our physicians and nursing staff.
376	Wyandotte Hospital Center for Cardiac Care	The Center for Cardiac Care bundles together all of the cardiac related programs and services, both inpatient and outpatient, offered at Henry Ford Wyandotte Hospital and Center for Health Services (CHS) at Henry Ford Cancer - Brownstown Township. The Center includes all of our programs and services centered on our cardiac patients, including cardiac catheterization, inpatient CCU, electrophysiology, vascular services, diagnostic testing, and cardiac and pulmonary rehabilitation.
377	Wyandotte Hospital Phyllis E. Edwards Nursing Scholarship Fund	Established in 2010, the Edwards Nursing Scholarship Fund seeks to honor the memory of Phyllis E. Edwards, a pediatric nurse manager who worked at Henry Ford Wyandotte Hospital for more than 30 years. The endowed fund, established in loving memory by her family, will award an annual scholarship to qualified women and men who are committed to pursuing a career in pediatric nursing.
378	Wyandotte - Bob and Sandy Riney Helping Hands Fund	Helping Hands is a charitable initiative sponsored and funded entirely by employees and physicians to help co-workers, volunteers and retirees in times of need. Since its inception in 1992, the program has provided financial assistance to hundreds of people in need. It has achieved some amazing results including helping pay for food, clothing and shelter for families who have lost their homes to fire as well as helping those who are sick or injured to pay for medical care unavailable through other means. This fund supports the employees at Henry Ford Wyandotte Hospital.
379	Wyandotte Hospital Center for Behavioral Health	This fund supports the education and research project for the department of Behavioral Health, including new equipment, seed money for pilot research projects and research tools.
380	Henry Ford Hospice	Hospice is a unique philosophy of care designed to meet the needs of patients who are in the final stages of terminal illness. Home care supported and guided by a multidisciplinary team of professionals is at the heart of the hospice philosophy. The goal is to manage terminal disease in a way that makes it possible for dying patients to remain at home in the care of their families for as long as possible.
381	Hermelin Brain Tumor Center	The Hermelin Brain Tumor Center has been recognized by the National Cancer Institute since 1993 for delivering the most advanced brain tumor therapies. The Center is on course to become one of the top five innovative brain tumor centers in the United States.
382	Center for Medical Imaging Fund at Henry Ford Wyandotte Hospital	This fund supports medical imaging technology and programs for Henry Ford Wyandotte Hospital and Henry Ford Medical Center - Brownstown Township
383	Wyandotte Center for Physical Rehab	This fund will raise funds for the Center for Rehabilitation to support ongoing projects that include the purchase of equipment and funding of new programs.
388	Wyandotte Hospital Men's Health Fund	Education community outreach, support for medical costs for men's health concerns.
389	Henry Ford Cancer - Detroit Capital Building Fund	Supports the capital building of the expansion of the current Henry Ford Cancer - Detroit.
390	Hypertension Education & Research Fund	The Hypertension Research and Education Fund supports the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.
392	Henry Ford Cancer - Detroit Patient Needs Fund	The Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
393	Henry Ford Cancer - Detroit	This fund supports the education and research projects for the Henry Ford Cancer - Detroit, including new equipment, seed money for pilot projects, new technology and educational tools.
395	Henry Ford Cancer - Brownstown Township Endowment Fund	This fund is endowed to provide ongoing support of oncology research through Henry Ford Cancer - Detroit. As an endowment, only the interest made off the corpus investment will be spent, allowing research to be supported in perpetuity.
396	Kidney Transplant Emergency Needs Fund	This fund supports kidney transplant patients who are in medical or financial need.

398	Interventional Radiology Fund	This fund will be used to support the equipment, new technology and patient needs of the Interventional Radiology program throughout Henry Ford Health under the direction of the Chairman of the Department.
399	Innovation Institute	Established in 2012, HFII is the flagship of Henry Ford Health's commitment to innovation and serves as both a physical and virtual resource. It provides System innovators access to an array of intellectual asset-related resources and programs that include technological opportunity assessment, engineering services for prototypes, seminars designed to convey opportunities, programs aimed at developing specific medical products and broad educational offerings in the realms of translational medicine and the entrepreneurial arts.
400	Infectious Disease Education and Research Fund	The Infectious Disease Education and Research Fund supports the efforts of studies of cause and prevention of infection in hospitalized patients, prevention of food-borne infections, infections in the immune compromised patients and HIV/AIDS research and education.
401	Infectious Diseases and Immunocompromised Host Research Fund	Contributions to this fund will help to support research for transplant patients. Other activities include research related activities for supplies, conferences and publication costs.
402	HIV Patient Needs Fund	This fund supports the efforts of studies of cause and prevention of infection in hospitalized patients, prevention of food-borne infections, infections in the immune compromised patients and HIV/AIDS research and education.
403	Jan Rival, M.D. Traveling Resident Fellowship	Funds to provide annual support for a selected resident to attend the National American College of Physicians meeting.
406	Karen J. Stuck, M.D. Radiology Resident	The annual interest accrued from this endowment will be provided each spring as a stipend to the outstanding senior radiology resident who demonstrates excellence in teaching, research, and education.
410	Internal Medicine Education and Research Fund	This fund will support the education and research projects for the department of Internal Medicine, including new equipment, seed money for pilot projects, new technology and educational tools.
412	Maple Grove Patient Care Fund	This fund will provide support and treatment to patients and the families in need of the services through the alcohol and substance abuse program at Henry Ford Maple Grove
413	Multiple Sclerosis Research Fund	This fund will support the education and research projects specific to Multiple Sclerosis, including new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with Multiple Sclerosis who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
414	Multicultural Dermatology Fund	This fund will support the education and research projects for Multicultural Dermatology, including new equipment, seed money for pilot projects, new technology and educational tools.
417	Medical Education Fund	This fund will be used specifically for the education and advancement of our staff through a variety of activities.
418	Movement Disorders Research Fund	To support research being conducted by the Department of Neurology.
419	Neonatal Intensive Care Unit Fund	This fund will support the education and research projects for the Neonatal Intensive Care Unit, including new equipment, seed money for pilot projects, new technology and educational tools.
420	Nephrology Education and Research Fund (RE calls this the CKD Patient Education Program)	This fund will support the education and research projects for the department of Nephrology, including new equipment, seed money for pilot projects, new technology and educational tools.
421	Nephrology Education Fund	This fund will support the educational projects for the department of Nephrology, including new equipment, seed money for pilot projects, new technology and educational tools.
422	Jerry Yee, M.D. Academic Development Fund	In memory of Dr. Jerry Yee who led the Division of Nephrology and Hypertension at Henry Ford Health for 20 years. This fund will support the academic mission of the Division of Nephrology & Hypertension at Henry Ford Health. This may include but is not limited to education, research, equipment, seed money for pilot projects, technology, etc.
430	Neurology Education and Research Fund	This fund would help support the education and research projects for ALS, Alzheimer's, epilepsy, multiple sclerosis, Parkinson's, and stroke in the department of Neurology, including new equipment, seed money for pilot projects, new technology and educational tools.
435	Neuropathy Center Fund	This center develops therapy for the treatment of neurological effects of diabetes and cancer treatments with an emphasis on the treatment of peripheral neuropathy. Peripheral neuropathy is a disease which results in the loss of motor function and sensitivity, which affects millions of people in the US.
440	Neurosurgery Education and Research Fund	This fund will support the education and research projects for the department of Neurosurgery, including new equipment, seed money for pilot projects, new technology and educational tools.

442	Neurosciences Institute Fund	This fund supports programs and projects for the Neurosciences Institute.
445	Next Generation Radiosurgery	This fund supports continuing educational and research projects in the quickly evolving field of radiosurgery for the treatment of cancer. The fund will also support future educational events and research projects pertaining to radiosurgery.
446	Macomb Hospital Emergency Department Fund	The Henry Ford Macomb Hospital Emergency Department Fund will support the HFHM Emergency Department and be utilized to purchase new equipment, seed pilot projects, acquire new technology and educational tools, and support a variety of other activities that are vital to the productivity of the Emergency Department.
447	Neuro ICU - Education and Research Fund	This fund supports expenses as necessary for the development of the Neuro ICU research and education.
448	Macomb Hospital Medical Education Fund	This fund supports education and research projects for Medical Education including helping to provide new equipment, enhanced technology and educational tools.
450	Northeast Patient Care Innovation Fund	This fund was established to support the ongoing needs for medical centers in the Northeast region, including patient educational materials and enhancement to clinical areas.
451	Northeast Region Patient Medical Needs Fund	This fund was established for patients who live in the Northeast region and are in need of urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
452	Northwest Region Patient Medical Needs Fund	This fund was established for patients who live in the Northwest region and are in need of urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
460	Nursing Professional Fund	Nurses are important and vital to the success of Henry Ford Health. This fund will be used specifically for the education and advancement of our nurses through a variety of activities.
462	Nursing Emergency Needs Fund	This fund will be used to provide financial support for emergency needs experienced by any member of the HFH nursing team. This includes support for needs such as: covering the cost of childcare, providing groceries or food, transportation, providing financial support in times of need, covering medical care or other emergency situations that may befall a HFH nurse. Nurse is defined in the broadest sense to include RNs, LPNs, NPs, nursing assistants and others in similar roles.
470	Off-Campus Detroit Patient Medical Needs Fund	The Off-Campus Detroit Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
472	Oncology Education and Research Fund	This fund supports oncology general education and research.
477	Personal Philanthropy Account	With a preferred pledge of \$1,915 to this account, you can designate your donation to this account and allow your donation to accrue over the course of the year in a holding account so that you can purchase tickets to Henry Ford Health special events, buy raffle tickets or auction items at events; or designate funds to programs or projects, make memorial or tribute gifts, etc. This is an annual account; all funds must be donated and used in the same calendar year. For more detailed information, please contact the Office of Philanthropy at 313-876-1031.
480	Orthopaedics Surgery Endowment	This fund supports the education and research projects for the department of Orthopaedics including new equipment, seed money for pilot projects, new technology and educational tools.
481	Orthopaedic Resident Education Fund	This fund will support the education and research projects dedicated to orthopaedic surgery, including new equipment, seed money for pilot projects, new technology and educational tools.
482	Total Joint Research Program in Orthopedics	Donations to this fund will help support research activities and projects related to bone and joint in the Department of Orthopedics.
483	BJC Anatomy Section Staff Education	Donations will help fund educational programs for staff of the Bone and Joint Center.
484	Orthopaedic Trauma Patient Needs Fund	This is a special needs fund to enhance the physical, emotional, and psychological recovery of patients that have been victims of trauma. Donations will help fund special requests from families including things such as medical supplies and other requests intended to support the patient's recovery. This fund will also support programs through the Trauma Recovery Initiative including peer-to-peer mentoring, trauma victim support groups, community events and behavioral health services.

485	Charles Townley, M.D. Endowed Resident Research Award	The Charles Townley, M.D. Endowed Resident Research Award will be presented annually to the resident demonstrating the most original research publication in a peer-reviewed journal. The award is open to all orthopedic residents in Michigan, both allopathic and osteopathic. Dr. Townley demonstrated tireless ingenuity as a resident at Henry Ford Hospital, and this award will uphold his spirit of imagination.
486	HFH Rehabilitation Services Fund for Enhancing Patient Outcomes	This fund will support research initiatives that will result in new evidence-based research that enhances patient outcomes through PT and OT interventions in an acute care setting. This fund will also be used to purchase activities and/or materials utilized in the treatment of patients.
487	URIM and DEIJ Orthopedics Scholarship	This scholarship fund will help support travel/lodging for medical students doing sub-internships or interviews for orthopedic residency at Henry Ford who identify themselves with groups underrepresented in medicine. These efforts may include, but shall not be limited to, scholarships for students who are underrepresented in medicine to complete clinical rotations, pathway programs to provide underrepresented students with mentorship, research opportunities, tutoring, career advising and test-taking support, etc.
488	Sports Medicine Education, Research and Innovation Fund	The Sports Medicine Education, Research and Innovation Fund will support educational, research, innovation and community outreach projects for the division of Sports Medicine, including new equipment, seed money for pilot projects and research studies, new technology and educational tools. The individual overseeing sports medicine, currently the Chief of the Division of Sports Medicine, shall be responsible for carrying out the intent of this fund.
489	Otolaryngology (ENT)- Head & Neck Cancer Equipment Fund	This fund shall be used to support the acquisition of equipment that will primarily benefit Head & Neck Cancer patients.
490	Otolaryngology (ENT) - Richard Nichols Lectureship Fund	This fund will support the educational projects for the department of Otolaryngology including guest speakers, educational tools and seminars.
491	Otolaryngology (ENT) - Voice Research Program	This fund will support the education and research projects for Voice Research, including new equipment, seed money for pilot projects, new technology and educational tools.
493	Parkinson's Disease Program Fund	This fund will support the education and research projects specific to Parkinson's disease, including new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with Parkinson's disease who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.
494	Pancreatic Cancer Research Fund	This fund will support the Pancreatic Cancer research program within the department of Gastroenterology.
495	Otolaryngology (ENT) Education and Research Fund	This fund will support the education and research projects for the Department of Otolaryngology, including new equipment, seed money for pilot projects, new technology and educational tools.
496	Otolaryngology Clinical Trials Support Fund	This fund supports innovative clinical trials in the Department of Otolaryngology for patients needing new treatment options and to provide pilot funds to initiate trials for the purpose of developing data for national trials.
497	Yaremchuk, M.D., Endowed Chair in Otolaryngology-Head and Neck Surgery	The fund shall be used to support research consistent with the mission of the Henry Ford Hospital Department of Otolaryngology, including investment in research that increases access to National Institutes of Health grants and translational research directly impacting patient care. The research should further enhance the position of the department as a leading academic Department of Otolaryngology in the United States, a department with the long tradition of providing excellent patient care through research and education of the next generation. To continue that tradition, funds may also be utilized for recruitment, retention, mentoring and growing the department.
500	Pathology Education and Research Fund	This fund will support the education and research projects for the department of Pathology, including new equipment, seed money for pilot projects, new technology and educational tools.
508	Pediatrics Research and Education Fund	The Pediatrics Research and Education Fund will accept donations which will provide funding for research and education programs and projects within the Department of Pediatrics at Henry Ford Health System.
510	Pediatric Development Fund	This fund is used to improve the care delivery and experience for families using Henry Ford pediatric services.
512	Female Pelvic Floor Medicine and Reconstructive Surgery Division Research and Education Fund	This fund will be used to support research and education activities related to female pelvic floor medicine and reconstructive surgery.
516	Philip C. Hessburg, M.D. Endowed Lectureship: Progress in the Eradication of Blindness	The Philip C. Hessburg, M.D., Detroit Institute of Ophthalmology Endowed Lectureship shall be used to continue research (as part of the research arm of the Department of Ophthalmology) and/or DIO education.
519	Donald M. Ditmars, MD, Plastic Surgery Research Fund	This fund will support the education and research projects for the division of plastic surgery, including new equipment, seed money for pilot projects, new technology and educational tools.

520	Pulmonary and Critical Care Education and Research Fund	The Pulmonary and Critical Care Education and Research Fund is used to support new research activities that are lacking some other source of funding and to provide educational opportunities for fellows and staff in support of the academic mission of the Division.
521	Pulmonary and Critical Care Medicine Fund	This fund will support the needs of the Bower Library within the department of Pulmonary and Critical Care Medicine.
522	Lung Transplant Fund	Gifts to this fund will help support the education and research programs for lung transplantation in the Transplant Institute.
528	RAD-AID International Relief and Resident Education	RAD-AID is an international organization at the forefront of addressing these needs by developing sustainable imaging and radiology education around the globe. The funding provided will be used to help acquire necessary equipment, support resident travel and improve the lives of patients around the globe. Since 2013 we have supported RAD-AID by remotely reading radiology studies from Haiti, developing an ultrasonography curriculum for international users, traveling to Nicaragua to provide medical imaging services and training local users.
530	Radiation Oncology Department Fund	This fund will support the education and research projects for the department of Radiation Oncology, including new equipment, seed money for pilot projects, new technology and educational tools.
531	Radiology Breast Imaging Fund	This fund will be used to support the equipment, new technology and patient needs of the Radiology Breast Imaging Centers throughout Henry Ford Health under the direction of the Chairman of the Department.
532	Karen Stuck M.D. Radiology Technologist Fund	For the Radiologist Technologist who demonstrates outstanding contributions and excellence in radiologic technology. HFH will use the gift in support of an endowment for an annual monetary award for education for a senior technologist within the Department of Diagnostic Radiology at HFH who demonstrates marked excellence in patient care, teaching and mentoring.
533	Random Act of Kindness Fund	Henry Ford West Bloomfield Hospital employees are very committed to one another. Money raised for this fund will directly benefit Henry Ford West Bloomfield employees, volunteers and retirees in times of need. What makes this fund unique is that decision about fund allocation will be made quickly, with a turnaround time of 24-48 hours. Decision committee will include CEO, VP of HR, and two hospital employees who will serve a one-year term.
534	The Dr. Cynthia D. Ray Patient Rescue Fund	The Dr. Cynthia D. Ray Patient Rescue Fund will be used to provide supplemental support and emergency assistance to pulmonary patients who encounter financial or other barriers to receiving medical care. Funds will be disbursed under the supervision of Pulmonary Department leadership and may be used to cover patient assistance related to transportation, hotel/lodging, prescription drugs, and any other emergency needs.
535	Referring Physician Family Care Fund	The RPO Family Care Fund will aid family members traveling with ill patients. This will generally be in the form of financial aid for guest housing, food vouchers and parking passes.
539	Research Facility Renovation/Capital Fund	This fund is used for capital needs of the Research Department.
540	Henry Ford Hospital Research Program	The Research General fund supports research initiatives, including new equipment, seed money for pilot projects, new technology, educational activities and infrastructure improvements (i.e., renovations). The research studies fall into three main categories: 1) basic science studies in important areas of biomedical research; 2) clinical trials of new treatments and devices; and 3) health and population studies related to the prevention, diagnosis, treatment and management of chronic and acute conditions.
542	Rheumatology Research Fund	This fund will support the education and research projects in rheumatology, including new equipment, seed money for pilot projects, new technology and educational tools.
543	Resident and Fellow Wellness and Education Fund	This fund will support educational and wellness programs for the residents and fellows of Henry Ford Health.
550	Hospice SandCastles Grief Support Program	Children are special and sometimes they need special help. SandCastles Grief Support Program, established in 1997 by the Hospices of Henry Ford Health, focuses on the belief that every child and teen deserves the opportunity to grieve in a supportive, nurturing environment. Grieving children and teens, ages 3 to 18, are offered a special place where they can interact with peers who have experienced similar losses, learn life-long coping skills and most importantly begin a healthy healing process. This program exists solely on donations given directly to the program.
551	SandCastles Magnolia Endowed Fund	The SandCastles Magnolia Endowed Fund is support for the Henry Ford SandCastles Greif Support Program for Children and Families.

555	Nancy Schlichting Endowed Leadership Lecture	The fund will pay tribute to Nancy Schlichting's vision, innovation and determination, which ushered in a new era in Henry Ford's long and storied history. Every year, this lecture will invite great minds in leadership and health care to Henry Ford Health to speak on topics that foster the same kind of illumination and transformation Nancy has inspired.
556	Henry Ford Health Green Fund for Environmental Sustainability	This fund will support the environmental sustainability efforts such as expanding our recycling program, reducing waste, installing water bottle filling stations, making our facilities more bike and pedestrian friendly, and reducing overall impact on the environment with a goal of improving the health of employees, patient and communities.
558	Women-Inspired Neighborhood (WIN) Network.	Fund to support general operating expenses of WIN Network on an ongoing basis.
560	School-Based and Community Health Program	The SBHI has successfully developed and now manages a network of school-based health centers in nine Detroit public schools and one Warren high school. These centers range from health promotion sites to full-service health clinics.
561	Tobacco Treatment Services General Fund	This fund is used to support Henry Ford Health's Tobacco Treatment Services program.
570	Sladen Library Fund	Sladen Library is a critical resource utilized by physicians and nurses of Henry Ford Health. The library receives a tremendous number of visits - both physically and on the internet. More than 125 people visit the library each day and receive more than 30,000 'hits' on the library website. By donating to this fund, you help support this service for the physician, nurses and patients served by Henry Ford Hospital.
571	Sleep Center Education and Research Fund	The Sleep Center Education Fund will support the education and research projects for the division of sleep medicine, including new equipment, seed money for pilot projects, new technology and education tools.
575	Destination Grand - Henry Ford Hospital Detroit Campus Transformation	This fund supports all aspects of the Henry Ford Hospital campus expansion project including but not limited to the construction of a brand-new, state-of-the-art academic hospital facility with patient tower.
580	Downriver Special Projects Fund	This fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.
582	Sports Medicine Program Needs Fund	Funds will be used to support sports medicine educational programming needs for the Department of Orthopedics.
583	Stroke Program Fund	This fund supports the ongoing needs of patients in the Henry Ford Hospital Stroke program, including education and research.
584	Summer Stroke Retreat Fund	This fund supports a weekend summer camp for stroke patients so that they may receive rehabilitation and respite services.
588	Supportive Oncology Endowment Fund	The interest earned on this fund including any additional contributions later added to the fund by the donors or others, shall be used for psycho-social care for HFH oncology patients and caregivers. The fund is available to fund distress screening, support groups, survivor programs, nutrition education, meditation, acupuncture, music and art therapy.
590	Surgery Education and Research Fund	The Surgery Education and Research Fund supports innovative approaches to surgical resident education including computer based, multimedia instruction, and the use of simulators. The fund supports the development, purchase, and maintenance of the surgical education and simulation laboratory, as well as research projects which investigate the outcomes of these educational efforts.
598	Henry Ford Plymouth Emergency Department General Fund	Fund will support the Plymouth Emergency Department, providing funding for new equipment, seed money for pilot projects and educational tools, and a variety of other activities that are vital to the productivity of the department.
599	Michael C. Tomlanovich, M.D. Endowed Fund	The Department of Emergency Medicine is the largest gateway to Henry Ford Hospital. The Department has a distinguished history of both basic science and clinical research. This fund will continue to support the educational and research needs of the department.
600	Transplant Institute	The Henry Ford Transplant Institute is one of the nation's busiest and highest regarded transplant centers. Patients and their families can feel confident knowing that Henry Ford's transplant survival rates are among the best in the state, as well as significantly above the national averages.
601	Transplant Institute - Center for Living Donation	Organ donation saves lives for people in need of transplant. There is a great shortage in organ donors and number of deceased donors has been limited. The living organ donor pool offers a great potential to save more lives. This fund will help create a coordinated approach to providing excellent care and support to those who donate organs to others and thereby encourage more live organ donations

608	Youth Medical Services at Ruth Ellis Center	Donations to this fund will support School-Based and Community Health Program services at the Ruth Ellis Center. Specifically, this fund shall be used to address the health needs of LGBT youth including health screening, education, treatment, equipment, medication and lab services not covered by insurance
610	Vascular Surgery Education and Research Fund	This fund will support the education and research projects for the department of Vascular Surgery, including new equipment, seed money for pilot projects, new technology and educational tools.
611	D. Emerick and Eve Szilagyi Chair in Vascular Surgery	This fund was established to support the legacy of this outstanding clinician and scientist. Funds support the research and educational endeavors of the Division of Vascular Surgery at Henry Ford Hospital.
612	VCORE Fund for Urology Research and Education	This fund will be dedicated to the development and expansion of the Vattikuti Urology Institute Center for Outcomes Research Analytics and evaluation (VCORE), a center of excellence committed to groundbreaking research and educational training. Funds shall be used to fund all items related to research and education under the VCORE program.
614	Henry Ford Male Reproductive and Sexual Medicine Fellowship Fund	To support the development of the men's health program and the male reproductive and sexual medicine fellowship at Henry Ford. The goal of the program is to provide patient centered precision medicine for men with reproductive and sexual medicine concerns, conduct cutting edge research to advance the field, and train the next generation of experts and thought leaders in the field of men's health
615	Urology Education and Research - Peabody Projects	Fund will support education and research projects for the department of Urology, including new equipment, research, technology and educational training. This fund is to be directed by Dr. James Peabody, or Dr. Peabody's designee, for the duration of Dr. Peabody's employment at Henry Ford Health. Initial spending from this fund is expected to focus on a project related to exosome research. If funds remain after Dr. Peabody is no longer employed by Henry Ford Health then the remaining funds will be directed by the Chair of the Department of Urology.
616	Bladder Cancer Education and Research Fund	The fund shall be used to fund all items related to research and education from equipment needs, staff retention and recruitment, technology, training and other needs that advance the scientific knowledge and treatment of bladder cancer in the Department of Urology at Henry Ford Health.
617	Urology Innovation & Equipment Fund	These funds shall initially be used to ensure HFH is able to purchase an ExactVu microultrasound system for ultrasensitive diagnosis of prostate cancer and for targeted biopsies. Once Henry Ford Health has purchased the equipment listed above, additional funds shall be used to support other efforts in the Department of Urology to implement enhanced innovations that primarily benefit patients. This may include new equipment, technology, programming, capital improvements, research and education.
618	URIM and DEIJ Urology Scholarship Fund	This scholarship fund will help support travel/lodging for medical students doing subinternships or interviews for a urology residency at Henry Ford Health who identify themselves with groups underrepresented in medicine.
619	Tim Pryson Kidney Cancer Research Fund	The purpose of the fund is to support research to improve outcomes of patients with kidney cancer and to help innovate new treatments. The fund will help support education and training of future leaders in kidney cancer research and help support research projects and presentation of research at national meetings.
620	Vattikuti Urology Institute	Vattikuti Urology Institute The Vattikuti Urology Institute (VUI) is currently building upon its world renowned robotic surgery program. From pioneering the treatment of prostate cancer with robotic surgery, the VUI has begun expanding their robotic program for other treatments. Funding will be used for the continued development and research of minimally invasive surgery techniques and support other activities related to prostate cancer research.
621	Prostate Cancer Fund	This fund will promote the vision for a superior patient experience with rapid prostate cancer diagnosis and treatment and other such advancements in Urology. The fund will support a wide range of expenditures including, but not limited to: research, education, equipment, and patient care needs.
623	Howard Neff Fund to Support Vision Restoration	Vision restoration was a passion for Howard Neff, M.D. He believed that we will be able to implant a device in the eye that will help the blind to see again. Progress has been made in this field but more research is still needed. Money donated to this fund will support research in the development of neuro-prosthetic devices to restore vision. The Fund can be used toward: equipment, research methods, salary and other resources that will contribute to the development of vision restoration techniques, equipment and practices.
625	West Bloomfield Hospital Chaplain's Fund	The Chaplain's Fund was set up to receive funds that would be used to support medical and humanitarian outreach to the medically underserved people of Greater Detroit and Henry Ford West Bloomfield's immediate service area. This fund also supports medical outreach and medical mission teams going to Nicaragua.

628	Warden Chair in Multi-Cultural Health	This fund will support continuous support to the Institute on Multicultural Health for initiatives that serve underrepresented racial and ethnic populations through research, education and the delivery of culturally appropriate healthcare.
630	Benson Ford Fund-Where Funds are Needed Most	This trustee-supervised fund directs your gift where it is needed most throughout Henry Ford and helps make possible improvements to medical facilities, fund research programs and provides the necessary tools for managing the health needs of people in our community.
634	West Bloomfield Labor and Delivery Unit Teaching Care Endowment	This fund supports nursing education opportunities including, but not limited to, professional development, conferences, trainings, and certifications for nurses in the Labor and Delivery Unit of Henry Ford West Bloomfield Hospital. As an endowment, only the interest made off the corpus investment will be spent, allowing these opportunities to be supported in perpetuity.
635	West Bloomfield Hospital Joint Replacement Program Strategic Fund	This fund will provide a powerful source of discretionary support to address needs and maximize opportunities for the Joint Replacement Program at HFWBH. Funds can be used for staff development, research, patient medical needs, technology, programming and other needs deemed appropriate by the director of the program.
636	West Bloomfield Hospital The Beverly and Robert N. Canvasser Compassion Endowed Fund	The Beverly and Robert N. Canvasser Compassion Endowed Fund Description: This fund shall be used to help Henry Ford West Bloomfield Hospital employees, volunteers and retirees (and potentially patients) who have experienced some type of catastrophe. The fund helps people at their most vulnerable of moments and provides a bridge for them to work through their unfortunate situation.
637	West Bloomfield Hospital Transitional Care Strategic Fund	Funds will be used to address the needs of high risk patients who require transitional care follow ups, and to provide the ongoing support and resources required to meet those needs. High risk patients are identified by the case management (per policy criteria). These patients have complex medical histories and are frequent fliers with low health literacy.
638	Wigs for Chemo Patients Fund	The Wigs for Chemo Patients Fund supports a unique program that helps provide stylized wigs for patients who are undergoing chemotherapy.
639	POST Project: Maternal Mental Health Development Fund	This fund recognizes the negative effects that depression, anxiety, trauma and extreme stress can have on pregnant women and young families. This fund supports the development and sustainability of initiatives that support childbearing families, provide professional education and maternal mental health advocacy.
640	Fund for Gynecology Cancer	This fund will support the education and research projects for the department of Obstetrics and Gynecology, including new equipment, seed money for pilot projects, new technology and educational tools.
641	Women's Community Health Education and Research Fund	This fund is for the development of research and education and will be used to further said program in the department of Women's Health at all locations. The chairman will manage said fund and appropriate procedures will be established to allow for the requesting of funds for the development of individual programs/projects.
642	Minimally Invasive Program Development	For the promotion and development of staff interested in minimally invasive women's health surgery - robotics.
